ABOUT US

Sardar Group's history dates back to the 1960's in Kirkuk city when Al-Haj Hussien Al-Bebany, the founder of the business, had a vision far ahead of his time.

During the early 1980s, the business shifted to auto-trading; Sardar cars became an established name throughout Iraq after the company moved to Baghdad in the 1990s and built the first car-covered showroom in the country.

With more than 30 years of rich experience in the field, Sardar Group became the leading group in the Automotive Sector in Iraq.

"Since 2003, our multiple companies have excelled in keeping a renowned reputation, track record, and credibility throughout the years."

Since 2005 with a desire to move from Automobile Trading to providing its customers with all-round Automotive Solutions, Sardar Group started utilizing the synergies of its existing operations to diversify its automotive business activities to include Trading, Equipment & Machinery and most importantly Aftersales Service Support.

SAKURA PARK

As a social contribution from Sardar Group, for the 2nd year in a row, 200 Sakura trees have been brought from Japan to Iraq. This year, the Sakura trees came from the ancient capital of Japan known as Kyoto in hopes to be planted in public areas for the people to enjoy. From the 200 Sakura trees, 50 of them will be planted in Sakura Park which covers an area of 10,000 m² and is located on the Airport Street near the Toyota SAS Showroom.

This act of friendship between Japan and Iraq began last year in December 2015, by bringing the first 200 Sakura trees to Iraq for the very first time. Sakura Park will be opened in resemblance to the friendship tie and in memory of our noble Peshmerga fighters, as the Sakura Tree is nationally tied to brave Samurai spirit of Japan.
